CAYMON FCB104 Caster board for flightcase - 530mm x 570mm

Produkt archiwalny

OPIS

The FCB104 is a caster board for transportation of flightcases or other heavy equipment. The construction is made out of solid and high quality plywood with a thickness of 18 mm. Four swivel bearing casters with 100 mm (4”) diameter and blue rubber tyre are mounted underneath, two braked and two unbraked. Mounting holes for flightcases are provided, allowing instant and permanent fixation to matching flightcases using the included fastener (M8x50mm). Two oval shaped cutouts offer great convenience for movement and carriage of the caster board. Superior durability is guaranteed through the Penn-Elcom® casters.
