 OPIS

Kramer's BCUNIKAT cable is a unified CAT6a cable that handles all Pro AV and IT signals. Over four individually screened twisted pairs, this U/FTP CAT6A cable runs Kramers DGKat™ technology, 4K HDBaseT™ technology or LAN applications and ensures optimal signal performance.

- Quality Construction 4 shielded twisted pairs (U/FTP) of 23AWG solid copper conductors are cabled together in an unshielded outer jacket.
- Optimized for Kramer Hardware Use with any of Kramers wide range of twisted pair digital transmitterreceiver sets. Terminate with shielded transmitterreceiver sets (DGKat™ and HDBaseT) and shielded RJ45 connectors.
- HDBaseT Recommended www.hdbaset.org/hdbasetrecommendedcables/.
- Reaction to Fire Classification Dcas2,d1,a1 (optional: B2cas1,d1,a1).
- RJ45 Connector The larger diameter 23AWG twisted pair cable requires a suited RJ45 connector. Use the KLAN CONRJ453.
- Length 305 m

Applications

- Structure cabling for horizontal and building backbone cable.
- IT, LAN, HDBaseT and Ethernet installations.
- Ideal for 10GbE and legacy speed applications.
- IEEE 802.3af, IEEE 802.3at and IEEE 802.3bt.
