

Smart Digital Signage with High Visibility

SH7E

With a powerfully enhanced smart platform, the SH7E series is a versatile display able to respond to each customer's specific needs. Moreover, it delivers clear and vivid content with high brightness, which is ideal for brightly lit locations.

FOR YOUR SECURITY AND SAFETY BE AWARE OF YOUR SURROUNDINGS IF YOU SEE SOMETHING SAY SOMETHING

Smart Digital Signage with High Visibility

SH7E

Superior Picture Quality

High Visibility

The 700 cd/m² brightness is enough to stand out against the surrounding background, so the display can attract passerby and delivers content vividly and effectively under brightly lit condition.

Wide Viewing Angle

LG IPS panel technology provides better control of the liquid crystals, which in turn allows the screen to be viewed at virtually any angle. So it delivers stable and accurate colors no matter where viewers are.

Smart Digital Signage with High Visibility

SH7E

Outstanding Performance

Thermal Printer Supported

Users can easily enable the thermal printer solution* by plugging a USB into the display. It functions versatily as a ticketing machine for various locations such as restaurants, movie theaters, banks and airports.

* Supported model: NIPPON PRIMEX (NP-3511, NP-3611)

Real-time Care Service

The maintenance gets easier and faster with an optional service Signage 365 Care, a cloud service solution provided by LG service. It remotely manages status of displays in client workplaces for fault diagnosis and remote-control services, ensuring the stable operation of a client's business.

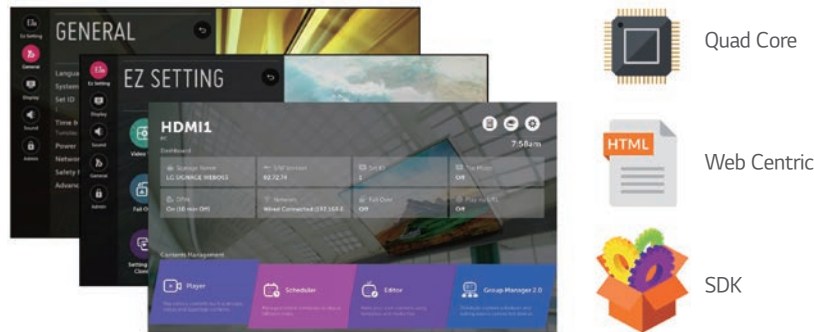

Smart Digital Signage with High Visibility

SH7E

High Performance

User-friendly Smart Platform

The LG webOS smart signage platform is tailored to diverse commercial requirements. It supports HTML5 as a web-based platform and offers SDK*, so SIs can easily build and execute their own apps. Moreover, LG webOS enhances user convenience by providing an intuitive UI that is optimized for business purposes.

* SDK: Software Development Kit

All-in-one Display

Powered by a smart platform, SH7E easily supports connections with external sensors such as GPIO, NFC/RFID, temperature sensors, etc. via USB plug-in. The overall cost of ownership is reduced as there's no need to purchase additional software or media players.

Does not need a media player or Software.

Easy Management

Embedded CMS

The embedded CMS* allows you to edit and play content, schedule a playlist and even group and control signages via remote control, without need for a separate PC. This makes content management much easier and user-friendly.

* CMS: Content Management System

Mobile & Web Monitoring

Through the control manager, the embedded web monitoring program, you can check the status, control settings, and receive log information and other data in real-time.
