

Surface Mounted System

This speech transfer system features individual speaker and microphone units for the customer-side. This system also includes our open duplex amplifier, a hearing loop, and a free-standing staff microphone and speaker unit.

It is suitable for quiet environments with low ambient noise.

Components

- Speech Transfer Amplifier [STS-A31H]
- Surface Mounted Speaker and Microphone [STS-S60-G/B] [STS-M54-G/B]
- Staff Loudspeaker Unit [STS-SU1-G/B]
- PS-55 Power Supply [PS-55-01]
- Counter Hearing Loop Aerial [IL-AE99]

Physical Data (boxed)

Dimensions	Height – 130mm (5.11") Width – 340mm (13.38") Depth – 240mm (9.44")		
Weight	2.90kg (6.39lbs)		
Construction	Mild Steel		
	ABS Plastic		
Finish	Grey Powder Coated Leatherette		
	Black Textured Powder Coated		

STS-K002L-G / STS-K002L-B

contacta

Applications

For use where one to one communication takes place at a counter or booth with a security screen:

- Banks
- Post Offices
- Ticket Kiosks
- Information Centres
- Airports

Standards

- BS EN 60118-4 in correct installations
- CE, ROHS and WEEE compliant
- EN 55032:2015 compliant
- EN 55103-2:2009 compliant

Physical and Technical Data (Individual Parts)

Component	Physical Data		Technical Data		
Speech Transfer Amplifier		Supply Voltage	12-14 VDC		
	Dimensions: Height - 116mm (4.57")	Quiescent Current	100mA typical		
	Width - 115mm (4.53")	Operating Current	2A typical on speech peaks		
	Depth - 40mm (1.57")	Power Switch	Push on - push off (tact switch under membrane)		
	Weight: 100g (0.22lbs)	Microphones	Electret, supply 5V via 2.2K load resistor		
	Construction: ABS Plastic	Speaker Output Power	RMS: 2.5W / 8 Ω 4.4W / 4 Ω		
	Finish: Matt Black Fine Texture	Loop Drive Compliance	Constant current, bounded by 4V RMS & 2A RMS		
		Total Harmonic Distortion	<5% (loop and speakers)		
PS-55 Power Supply	Dimensions: Height - 93mm (3.66") Width - 49mm (1.93") Depth - 36mm (1.42") Cable length: 1.8m (70.87")	Input	100-240V 50-60Hz 1A max		
	Weight: 180g (0.39lbs)	Output	14V 2.14A 30W max		
	Construction: ABS Case				
	Finish: Black				
Staff Loudspeaker Unit	Dimensions: Height - 70mm (2.76") Width - 100mm (3.94")	RMS	5W		
	Depth - 160mm (6.30″) Weight: 850g (1.87lbs)	Impedance	4 Ω		
	Construction: Mild Steel	Output	SPL 1W @ 1M 85dB		
	Finish: Grey Powder Coated Leatherette Black Textured Powder Coated	Frequency Response	150Hz - 10300Hz		
Surface Mounted Speaker and Microphone	Dimensions:	Speaker	RMS	5W	
	Height – 75mm (2.95") Width – 60mm (2.36")		Impedance	4Ω	
	Depth – 110mm (4.33")		Output	SPL 1W @ 1M 85dB	
	Weight: 550g (1.21lbs) Construction: Mild Steel Finish: Grey Powder Coated Leatherette		Frequency Response	150Hz - 10300Hz	
		Microphone	Directional Response	Omni-Directional	
			Frequency Response	100Hz - 5000Hz	
			Sensitivity	-42.5 ± 2.0dB @ 1KHz (0dB=1V/pa)	
	Black Textured Powder Coated		Impedance	2K Ohms =/- @ 1KHz	
Counter Hearing Loop Aerial	Dimensions: To be moulded on site to required size/ shape by installers.				
	Weight: 100g (0.22lbs) Construction: Copper Wire with Black				
	Protective Covering				
	Finish: Black
